

2017 Call for projects INTERNATIONAL ECONOMIC LAW CLINIC

PRO-BONO LEGAL ADVICE FOR DEVELOPING COUNTRIES,
INTERNATIONAL ORGANIZATIONS, NGOs, SMEs

TradeLab

International rules on cross-border trade and investment are increasingly complex. There is the WTO, World Bank and UNCTAD, but also hundreds of bilateral investment treaties (BITs) and free trade arrangements ranging from GSP, EU EPAs and COMESA to ASEAN, CAFTA and TPP. Each has its own negotiation, implementation and dispute settlement system. Everyone is affected but few have the time and resources to fully engage.

Who we are

TradeLab aims to empower countries and smaller stakeholders to reap the full development benefits of global trade and investment rules. Through pro bono legal clinics and practica, TradeLab connects students and experienced legal professionals to public officials especially in developing countries, small and medium-sized enterprises and civil society to build lasting legal capacity. Through 'learning by doing' we want to train and promote the next generation of trade and investment lawyers. By providing information and support on negotiations, compliance and litigation, we strive to make WTO, preferential trade and bilateral investment treaties work for everyone.

How we can help

- > Research and analysis for treaty negotiations
- > Compliance assessment of domestic or foreign laws
- > Assessment of legal claims or defence strategies
- > Writing of party and third party submissions
- > Preparation of amicus curiae briefs
- > Legal and economic research on cutting edge trade or investment questions.

Students and supervisors can work in a variety of languages.

What are legal clinics

Legal clinics are composed of small groups of highly qualified and carefully selected students. Faculty and other professionals with longstanding experience in the field closely supervise the work. Clinics are win-win for all involved: beneficiaries get expert work done for free and build capacity; students learn by doing, obtain academic credits and expand their network; faculty and expert mentors share their knowledge on cutting-edge issues and are able to attract or hire top students with proven skills.

How it works

Clinic projects are selected on the basis of need, available resources and practical relevance. Two to four students are assigned to each project. Students are teamed up with expert mentors from law firms or other organizations and carefully prepped and supervised by Academic Supervisors and Teaching Assistants. Students benefit from skills and expert sessions, do detailed legal research and work on several drafts shared with supervisors, mentors and the beneficiary for comments and feedback. The Clinic culminates in a polished legal memorandum, brief, draft law or treaty text or other output tailored to the project's needs. Clinics deliver in three to four months. Work and output can be public or fully confidential, for example, when preparing legislative or treaty proposals or briefs in actual disputes.

How to submit your project
